

ClubRunner System Maintenance Window – Feb 3rd 2024

2024-01-30 - Zach W. - Maintenance Notices

On Saturday February 3rd 2024 we will be performing system upgrades on the ClubRunner database and Mobile API systems between 1:00 AM and 5:00 AM NAEST.

During this window, some parts of your ClubRunner account may be unavailable. Websites should be generally operational, while some special pages (such as the Executives and Directors club page) may not be accessible during the window. Member's Area access and the Mobile application will not be available during this window as you will be unable to login.

Our team will be actively monitoring the system during and after the window completes.
